

## REFERENCE

It has been an absolute pleasure working with Website Style so far. Initially, we looked for a web agency that could create a website that is of very high quality, easy to use, optimized for mobile and desktop / reponsive, as well as modern and stylish looking. We talked to several different agencies and ended up choosing Website Style. They were able to create our website from scratch, create design that beautifully integrates with our structure and almost all our business partners and clients have complemented us on our website. Thus, Website Style exceeded our expectations by far.

They even created our own corporate-branded icons which we are able to use on all our branding material. Each time we need a new design or changes on our website, they reply almost immediately and get the job done in a very short amount of time. We can highly recommend working with Website Style if you are looking for a reliable and professional partner with regards to all graphic design tasks related to website, logo or icon creation.
